Personal Questions	
What is your favorite track?	Waterford- because everyone is fast there, which makes it difficult to pass. You can race 3 wide, and use all 3 grooves to make your car work well.
Why did you get involved in NEMA racing?	My brother got involved with the series about 10 years ago, which developed my interest to become a midget racer myself.
What are your goals in racing?	I am at my lifetime goal at the age of 21, therefore I would consider driving sprint cars if given the opportunity.
Biggest influence in your life?	Tim Bertrand. He has taught me to work hard on and off the track. Not only has he created a ton of success for me on the race track, but he has shown me that education, family, and friends are the most important essentials to life.
